

Analysis Order – PCR Resistance Diagnosis (Internal Greenhouse Test)

Important: This form is intended solely for samples grown in the greenhouse from submitted seed materials and analyzed as part of an internal test..

1. Client Information

Company / Project: _____

Contact Person: _____

Phone / Email: _____

Billing Address: _____

3. Sample Information

Biotype Name _____

4. Requested Services (please select options for DNA sequencing)

☒ DNA Extraction from Plant Material

☒ PCR Detection of Specific Resistance Markers

☒ DNA (Sanger) Sequencing (external service)

Target Gene:

☐ ACCase (HRAC 1 Herbicides), €96/8 Leaves (Plants)

☐ ALS (HRAC 2 Herbicides), €96/8 Leaves (Plants)

☐ psbA (HRAC 5 Herbicides), €96/8 Leaves (Plants)

☒ SNP Analysis (Single Nucleotide Polymorphisms)

☒ Test Report with Interpretation in Excel Format

5. Additional Notes / Requests
